Claims 1-4 are rejected under 35 USC 102 as anticipated by Eda.

Claims 5-9 are rejected under 35 USC 103 as unpatentable over Eda for the reasons set forth in the previous office action.

Regarding applicants remarks, applicant admits on the one hand that Eda teaches Quartz on a glass substrate (references to examples 36-44) yet on the other hand states that "Eda mainly discloses a quartz crystal member bonded to a 5i or 6a as semiconductor substrate. Eda, obviously teaches all three materials as a substrate. Further, Eda specifically teaches matching co-efficients of thermal expansion (see e.g. the Abstract). Thus, the rejections are seen to be proper.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
